

Magnetic Pictures

Magnets (Lessons 1–2)

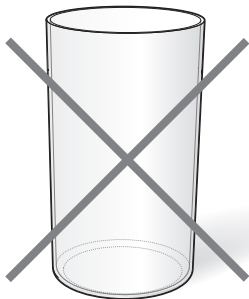

TEACHER NOTES:

Use this assessment after teaching Lesson 2.

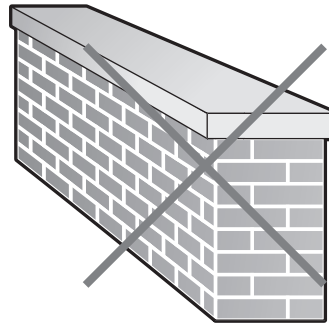

Once the children have circled or put an “X” through the pictures, you might choose to ask the question that follows orally, individually, or in small groups.

Circle the picture if the object is magnetic.

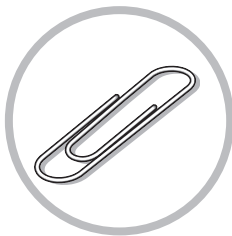

Put an “X” through the picture if the object is non-magnetic.

glass cup

brick wall

paper clip

flower

Why do you think the things you put an “X” through are non-magnetic?

EVALUATION GUIDELINE:

Children should indicate that the glass cup, flower and brick wall are not made out of metal.
