

My Picture of a Solid, Liquid, and Gas

Solids, Liquids, and Gases (Lesson 3)

Draw a picture of someplace that shows a solid, liquid, and gas. Label any solid, liquid, and gas in your picture.

TEACHER NOTE:

Use this assessment after teaching Lesson 3.

EVALUATION GUIDELINES:

When evaluating children's drawings, note whether they include the following elements:

- A solid, liquid, and gas in their drawing
- Labels identifying any solids, liquids, and gases in their drawing

To get a more complete idea of what children understand, you might ask them to describe what their pictures show.
